WEBCON BPS 2021 R1

history of changes for version 2021.1.2.143

Before upgrading WEBCON BPS

ₗ Make sure that WEBCON BPS licenses are up to date. It is recommended to refresh licenses before upgrading the system to avoid any unnecessary downtime.

ₗ If the changelog contains a section titled "Changes to existing features", please verify whether the changes will impact your implemented system in any way.

Bug fixes

[Modern form]

ₗ Fixed a display error of the "Google Map" form field.

[Form fields]

ₗ Fixed an issue that would prevent the user from selecting a value from the popup search window in a 'Choice field (picker)' type column on an Item list.
